TRIPURA IT/ITES START-UP SCHEME - 2019

1. Introduction

Tripura has several advantages for growth of IT/ITeS Industries and Start-Ups in the State.

- ✧ Tripura has leading position in literacy with 97.22% as per Literacy Assessment Survey 2016.
 - ✧ The 3rd International Internet Gateway (IIG) at Agartala has been commissioned on 23rd March 2016 extending 10 Gbps International Internet Bandwidth from Cox Bazar, Bangladesh to Agartala.
 - ✧ Tripura is the only Power surplus state in NE, having uninterrupted power supply across the state.
 - ✧ Tripura has completely hygienic pollution free environment.
 - ✧ Agartala has excellent connectivity facility with all major cities like Delhi, Bengaluru, Hyderabad, Chennai, Kolkata and Guwahati by Air, Railways and buses.
 - ✧ Tripura is the most peaceful state in North-East India without any insurgency activity. People of various religions and communities reside in harmony. State Government is proactive and committed to extend all possible supports to the investors/entrepreneurs.
- Considering the above advantages, Government of Tripura has taken several initiatives to create conducive eco-system for the growth of IT/ITeS Start-up Industries in Tripura and to create new employment avenues for the IT educated youths of the state.

2. Objective of Start-up Scheme-2019:

With the objective to provide financial and handholding support to create supportive eco-system for the Start-ups in the State, Government has introduced IT/ITeS Start-up Scheme-2019.

2.1 Incentive

- ✧ Patent Filing – Upto Rs 2 lakh for Indian patent and upto Rs 10 lakh for International patent is being reimbursed.
- ✧ Internet bandwidth cost – 100% of bandwidth cost is being reimbursed with a maximum ceiling of Rs 40,000/-.
- ✧ Proof of Concept (PoC) – 80% of Reimbursement of PoC is being reimbursed subject to maximum of Rs 10 lakh.
- ✧ Power Charge - 100% of power charges is being reimbursed.
- ✧ Recruitment assistance – One-time incentive of Rs. 30,000 per recruitment for first year is being provided.

2.2 Physical & Software Infrastructure Support

- ✧ 512 MBPS internet connectivity is being provided to all incubation facilities.
- ✧ Data centre space is being provided either in SDC or MeitY (Ministry of Electronics & IT, Govt) empaneled data center, for first 3 years with 100% subsidy.
- ✧ Subsidy in Incubation Rental charges (100% [for 3yrs] to 70% [4th Yr])

3. Setting up of Start-Up Incubation Centre:

To provide favourable infrastructure facility to the Startups, one dedicated incubation centre has been developed in IT Bhavan, Indranagar. Plug & play incubation seats have been allotted to the 6 (six) IT Start-ups.

4. Tripura Start-Up Venture Capital:

State Government has constituted Tripura Start-Up Venture Capital to provide risk capital to the potential Start-Ups of Tripura. Corpus fund of this venture capital is Rs. 50 crore. State Government contribution in this corpus fund is Rs.15 Cr, SIDBI has given commitment to contribute Rs.10 Cr and green shoe option is Rs.25 Cr. SIDBI Venture Capital Limited has been engaged as the Fund Manager for venture capital. This venture capital is sector agnostic and ticket size would be Rs.25 Lakhs to Rs.2 Cr. Potential Tripura Start-ups will be benefitted through this venture capital.

5. Start-up Incubation and Innovation Park:

Directorate of IT proposed to setup world class incubation centre for Start-ups of all sectors with lab facilities like IC Fabrication, 3D Printer, VC Facility, high speed internet and many more. Necessary fund has been provisioned in State Budget during the financial year 2022-23. Apart from incubation and Lab facility, this park will also provide support to the Start-ups for Market Readiness, Access to Start-up India Seed Fund Scheme (SISFS), Venture Capitals and MSME funds, Mentors and Experts, Operational Readiness, Market Access etc.
